## Forward Thinking - Pioneering - Innovative

### Growing the market for small wearables

Driven by the increasing demand from consumers for convenient ways to pay, the Smart wearable market is rapidly developing and expanding. DIGISEQ was established to service that market and is an innovative FinTech company providing Financial Services and Wearable companies with a solution that allows any Programme Owner or Manager, Issuer or NFC wearable manufacturer to enable payments on their products, securely and remotely.

### DIGISEQ - 'The Payment Device Enabler'

A pioneering company, DIGISEQ's founders recognised the evolving market needs and developed a consumer centric solution that is efficient, secure and designed to provide scalable, cost effective provisioning. DIGISEQ offers provisioning to any RFID device and as such enable a wide range of contactless products which are innovative, useful and convenient. In addition to payments, DIGISEQ can support the delivery of multiple applications such as Access

Control, Health Credentials, Loyalty and provenance, all at a fraction of the cost of existing solutions. DIGISEQ's Founders, Board Advisors and Management Team work together to deliver innovative, secure and easily adoptable payment device enabling solutions. Our pioneering solutions are focused to maximise Clients profits and provide ultimate Consumer satisfaction for trendy, safe and convenient contactless payment devices.

### Providing Trust with MULTOS

MULTOS has been at the heart of the secure token industry for 20 years, with over 1 billion secure MULTOS smartcards and devices shipped to over 3000 businesses in 50 countries. It is industry renowned as the premier standard of security and quality, and has obtained the highest band of security approval, the Common Criteria EAL7 certification. MULTOS secure elements are widely used in innovative contactless products and provide a flexible solution for payment devices, as well as Internet of Things (IoT) solutions. DIGISEQ joined the MULTOS Consortium in 2017 to expand the MULTOS related advanced services offered to the market. The innovative services provided by DIGISEQ compliment those provided by the existing 30 plus MULTOS Consortium members.
